

# SUNDARBAN MAHAVIDYALAYA

## YEAR: 2020

<b>Examination:</b> Internal Assessment (B.Com.)	<b>Semester:</b> Four (IV)
<b>Subject:</b> Microeconomics-II & Indian Economics	<b>Paper:</b> GE-4.1Chg.
<b>Full Marks:</b> 50	<b>Time:</b> 2 Hrs.

**General Instruction:** Same as the Instructions given Commerce Department.

### Module-I: Microeconomics-II [FM-25]

**Answer any One Question:**

1. Draw a diagram showing the average and marginal revenue curve of monopoly firm. What is the relationship between slope of the average & marginal revenue curves of monopoly firm. Use the relation

$$MR = P\left(1 - \frac{1}{e}\right) \text{ to show the output decision of a monopoly firm.}$$

[07 + 08 + 10 = 25]

2. Distinguish between gross interest and net interest. Define the equilibrium rate of interest on the basis of Classical Theory. State any two criticisms against the Classical Theory of Interest Determination.

[07 + 10 + 08 = 25]

### Module-II: Indian Economics [FM-25]

**Answer any One Question:**

3. Mention the two characteristics and the limitations of Green Revolution. Mention any three functions of NABARD. What do you mean by Agreement on Agriculture?

[(06 + 06) + 06 + 07 = 25]

4. Mention any two requirements for rapid industrialization in Indian Economy. Indicate the special feature of Second Five Year Plan in relation to Industrial Growth in India.

[10 + 15 = 25]
